# Google ChromeBox

Powerful, Sleek, Simple and Secure

[www.google.com/intl/en/chrome/devices/chromebox.html](http://www.google.com/intl/en/chrome/devices/chromebox.html)

# Security

1. Chrome OS is web-based and has very little information on the local machine
2. Each user must use an account to access the machine
3. All individual settings for accounts are saved online
4. Just push a button and the entire OS and every setting is set back to factory

# Simplicity

1. Chromebox requires only a single power cord, a keyboard, mouse, and a monitor and it is ready to go
2. USB, DVI, LAN, and even display ports make hooking up a breeze
3. Built in wireless makes networking simple
4. Setup involves very few steps and you are online in a few moments

# Sleek

1. Small package (about the size of a book)
2. Attractive design is simple but sophisticated

# Powerful

1. 4 GB RAM
2. a/b/g/n Wi-Fi
3. Gigabit Ethernet
4. Intel Dual Core 1.9 GHz processor (sandy bridge)
5. 16 GB SSD
6. 6 USB 2.0 ports

## ✓ Stop remembering passwords

From now on, all you'll need to remember is your Master Password, which no one — not even I — has access to.

Dashlane securely saves all your logins and passwords in one private place, under your control.

## ✓ Gauge security of your passwords

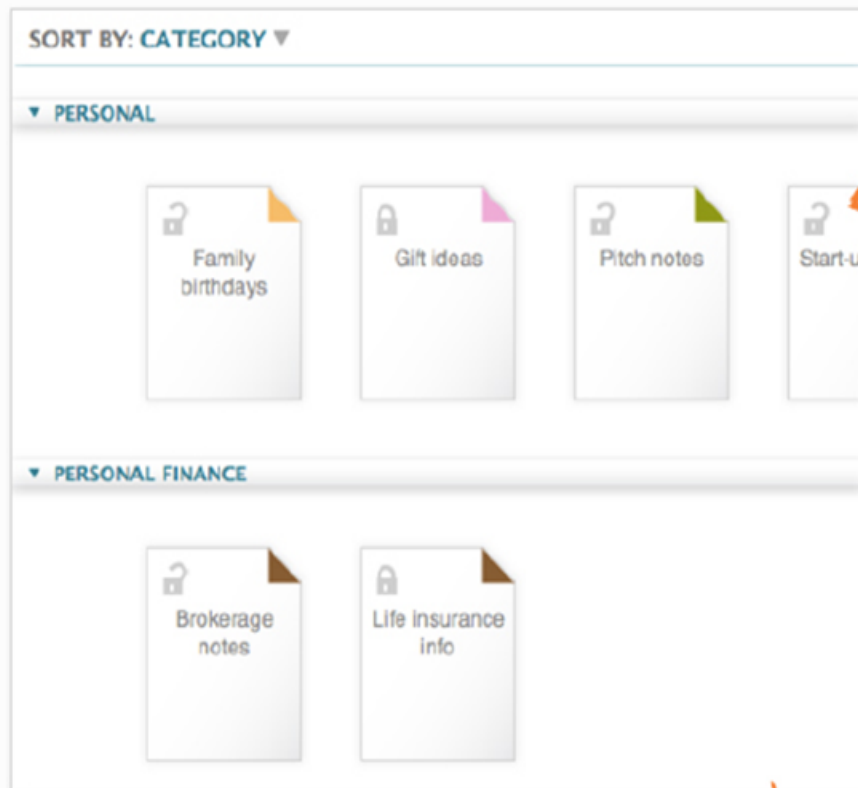

Dashlane's Security Dashboard gives you a complete report on how secure you are online, and makes it really easy to upgrade your password security across all your accounts.

Password	Password strength	# of times Password Used	Safety Level
•••••	100%	2	Super safe
•••••	10%	48	Very unsafe
•••••	32%	1	Not quite so safe
•••••	10%	48	Very unsafe

## **Welcome to Kerpoof Scholastics**

Kerpoof's multimedia software is used by kids worldwide to create original artwork, animated movies, stories, greeting cards and more. The site is meant to be fun, but we're serious about its educational value. Elementary and middle school teachers can use Kerpoof in many ways to enhance classroom activities while meeting a range of educational standards.

# LibraryBox

A self-contained digital resource sharing device

# Free anonymous file sharing

- Files of any kind can be loaded and made available through a wireless network
- Users do not have to log in to get access and no records of users or computers is kept
- Purposely not connected to the internet and user privacy is maintained

# Anyone can make it

- This is a cheap to implement idea, requiring very little to build
  - MR3020, Battery (or it can be plugged into anything with USB power), and enclosure
- All software is free and open source and ready-built, easy to install

# Endless possibilities and uses

- This device could be used to distribute a lesson plan, a required daily reading, joke-a-day etc.
- The uses are limited only by battery life and the imagination

Canon EOS Rebel T3i/600D From Snapshots to Great Shots Now that you've bought the amazing Canon EOS Rebel Tsi/600D, you need a book that goes beyond a tour of the camera's features to show you exactly how to use the Reveal to take great pictures. With Canon EOS Revel T3i/600D: From Snapshots to Great Shots, you get the perfect blend of photography instruction and camera reference that will take your images to the next level! Beautifully illustrated with large, vibrant photos, this book teaches you how to take control of your photography to get the image you want every time you pick up the camera. Follow along your friendly and knowledgeable guide, photographer and author Jeff Revell, and you will: Learn the top ten things you need to know about shooting with the rebel. Use the Revel's automatic modes to get better shots right away. Move on to the Creative zone, where you have full control over the look and feel of your images. Master the photographic basics of composition, focus, depth of field, and much more. Learn all the best tricks and techniques for getting great action shots, landscapes, and portraits. Find out how to get great shots in low light. Fully grasp all the concepts and techniques as you go, with assignment at the end of every chapter. With Canon EOS Rebel T3i/600 D: From Snapshots to Great Shots, you'll learn not only what makes a great shot work - you'll learn how to get that shot using your Rebel. And once you've got the shot, show it off! Join the book's Flickr group, share your photos, and discuss how you use your Rebel to get great shots at flickr.com/groups/canonrebelt3i600dfromsnapshotsstogreatshots.

**How to Pin directly into WYLD CAT**  
Pinning book covers is a great way to promote new books in your library. Here's how to Pin straight into the WYLD CAT record:

Video tutorial:  
<http://www.screencast.com/t/AUlk5T8R>

- Instructions:
1. Install the "Pin It" bookmarklet on your bookmarks bar.
  2. Find the ISBN for the item you want to Pin
  3. You'll need to use an ISBN search to make it work. Use this URL, and substitute the ISBN of the item you want to feature  
<http://wyld.state.wy.us/cgi-bin/isbn-search/9780393068474#>
  4. Now that you've brought up that record using the ISBN search, use the "Pin It" bookmarklet to add it.

This is the way to get both the book cover and a permanent link. You will not be able to bring in the book cover if you use the Link/Share URL that Sirsi generates or if you try to add a Pin from within Pinterest rather than using the bookmarklet. If you search for the record directly in WYLD, you can pin the cover but won't get a permanent link.

The screenshot shows the Google Wallet app interface. At the top, there's a blue header with the Google Wallet logo and a lock icon. Below that, the title "How to make a purchase" is displayed. A diagram illustrates a hand holding a smartphone against a payment terminal sensor. Below the diagram, a light blue box contains the text "Opening Google Wallet is not required" followed by a three-step list: 1. Wake up the phone screen, 2. Hold back of phone against the terminal, and 3. If prompted, select "pay with credit". At the bottom, there are two blue buttons labeled "Back" and "Learn more".

The campaign has ended! THANK YOU EVERYONE A MILLION TIMES OVER!

Now that it's over, what happens? Details here:  
[http://theoatmeal.com/blog/fundraiser\\_update](http://theoatmeal.com/blog/fundraiser_update)

Matthew Inman posted an announcement 3 months ago

Oops, bag that update. I decided to keep the campaign running for the original time planned.

Matthew Inman posted an announcement 3 months ago

One other note: a lot of people have been asking what I plan to do with the extra money we raised over the initial \$20,000. 100% of it is going to charity. I'm going to add 2 more charities to the list, in addition to the ACS and the NWF.

Matthew Inman posted an announcement 3 months ago

### Raise Money

Everyone should have the opportunity to raise money. Now everyone does. People all over the world use our industry-leading platform to raise millions of dollars for all types of campaigns. No matter what you are raising money for, you can start right now with no fee or application process.

### Create Your Campaign—It's Simple

At Indiegogo, creating a campaign is simple. Tell people what you are doing, how they can help and what unique perks they'll get for becoming contributors. You keep 100% ownership of your campaign and you don't owe us a cent until you raise money. Our customer happiness team is here to make sure you have the support you need any time of day.

### Gain Global Exposure

Indiegogo helps you spread the word about your campaign with a unique algorithm we call the gogofactor. Use our powerful social media tools when you launch your funding campaign and start sharing, tweeting, and encouraging people to "like" your campaign to boost your gogofactor. Raise it enough and you could be featured on our homepage or in the press!

### More choices. Fewer fees.

It's completely free to start or contribute to a campaign on Indiegogo. We offer two funding types, with the lowest fees in the industry. You can choose Flexible Funding and keep the money you raise, regardless of whether you meet your goal. Or, you can choose Fixed Funding, which refunds the money back to your contributors if you don't meet your goal. Either way, you don't pay anything until you begin raising money.

## Pricing & Fees

	Flexible Funding	Fixed Funding
You reach your goal	4%	4%
You don't reach your goal	<b>9% but you get to keep what you earned.</b> This encourages people to set reasonable goals and promote their campaigns.	<b>0% and your contributors get refunded.</b> Third-party fees do not apply for refunded contributions.
Third party fee	<b>3% for credit card processing.</b> plus a \$25 wire fee for non-U.S. campaigns. Currency exchange fees may also apply.

## Organise

Collect, sort and arrange your music in playlists.

To add a track, simply drag and drop it into any playlist.

## What's playing?

Clicking anywhere in this area takes you directly to the track.

## Search

Type in your search query to test it out. You have all the world's music at your fingertips.

The screenshot shows the Spotify desktop application with a search query for 'bella'. The interface is divided into several sections:

- Search Bar:** Located at the top, containing the text 'bella'.
- Left Sidebar:** Contains navigation options like Home, Radio, Play queue, and a search filter menu with options like 'All', 'Songs', 'Albums', 'Artists', 'Playlists', 'Podcasts', and 'Shows'.
- Search Results:** A table with columns for 'Track', 'Artist', 'Album', 'Popularity', and 'Album'. The first row is highlighted in blue. A mouse cursor is hovering over the 'Ciao Bella' track by the artist 'Rose'.
- Track Preview:** A large image of the album cover for 'Ciao Bella' by Rose is shown below the search results.
- Player:** At the bottom, there are playback controls including play/pause, previous, next, volume, and a progress bar.

## Control

Play, pause, next, previous, volume, seek, shuffle and repeat - all the controls you're familiar with are always easily accessible.

## Browse

Almost everything you'll see in Spotify is a clickable link which will help you explore our vast music catalogue in a quick and straightforward way. Try browsing around by clicking on artist names, album titles, year spans, genres, styles, tracks and playlist titles.

## Drag and Drop

All tracks, albums and artists can be dragged and dropped. Drop them on your desktop and you will get a shortcut you can use to play that track directly. Drop it into your chat conversation or email message; and a link is inserted that will launch the song when its clicked.

## Upload, Geocode and Import Locations

[Choose File](#) No file chosen[Upload](#)

### Notes

To import and geocode locations it's necessary to upload CSV (The **Comma** Separated Value) file. CSV files can be easily generated from any data source e.g. use "Save As", then select "Save as Type" - "CSV (comma delimited)" to save your Excel work book as CSV file.

After uploading file to the MapBuilder it will appear in "Uploaded Files List" below and you'll able to geocode addresses from that file and import locations to active map.

Basically for a successful geocoding it's necessary to have a **full addresses** column (e.g. "123 Main Street, Bellwood, PA") or separate columns for **Street Address** ("123 Main Street"), **City** ("Bellwood"), **Zip** ("16617") and **State** ("PA"). State, Zip columns are optional but they will help to receive correct geocoding results.

For a successful import to the MapBuilder system it's necessary to have at least "Caption" column in your CSV file.

After geocoding you'll see locations plotted on small maps and once you will ensure that everything is correct you'll able to import locations to your map.

- Step1. Map data rows to pre-defined types.
- Step2. Press "Geocode Locations" button. Wait until all Latitude/Longitude fields will have values returned by Yahoo geocoder.
- Step3. Analyze geocoding results. If you see number of the same Latitude/Longitude pairs do not use zip for geocoding. If you want to import zip column, just map it after geocoding.
- Step4. Press "Geocode Locations" button if you changed some columns and want to geocode data one more time.
- Step5. Select desired icon and press "Add Locations to Your Map" button to import location to current active map (see drop down in the menu area).  
*Note, if you have pairs with same Latitude/Longitude values adjust those values a little bit because Latitude/Longitude values should be unique for given map.*

## Import Summary

On this screen you'll see import summary. To check imported results directly on your map use MapBuilder's standard methods: navigate to map "Home" or use "Preview" functionality.

If something is wrong with locations names, descriptions you might re-import your locations to the same map. **Location details (caption, description) will be overwritten by new import results for locations with the same latitude/longitude values.**

## Privacy Settings

## Manage Your Facebook Privacy Settings

( Page 1 of 5 )

In this task, you will adjust various Facebooks privacy settings to better control your posts, photos, and profile sharing.

Facebook privacy settings control how things such as your messages, timeline posts, and photos are shared with the world. Just as important, they also give you better control over how Facebook is allowed to use your information.

The first step is to choose the default setting for how information is shared in some situations. This setting is a bit obscure, but we recommend to **not** keep this setting at "Public".

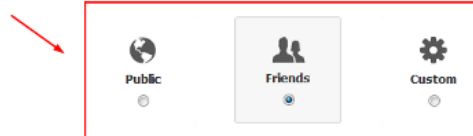

#### To adjust your default privacy setting:

Under the "Control Your Default Privacy" heading, choose one of the following options:

- **Public**- will potentially show some status updates and photos with anyone who views your profile.
- **Friends** or **Custom**- this would be a better selection for this setting. If you choose Custom, you can individual pick people, use lists, or various other options such as "Friends of friends" to choose how you share.

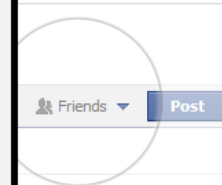

#### Control Your Default Privacy

This setting will apply to status updates and photos you post to your timeline from a Facebook app that doesn't have the inline audience selector, like Facebook for Blackberry.

### Yahoo Frequently Asked Questions

❖ **Is it true that accessing my Yahoo account and Yahoo email over public Wi-Fi is not safe?**

Yes, using your web browser to access Yahoo account or Yahoo mail over public Wi-Fi puts your account at direct risk. Because Yahoo does not use proper encryption, it is not difficult for hackers and snoopers to take over Yahoo accounts when used over public Wi-Fi.

Although hackers will not be able to obtain your Yahoo password, they will be able to view your contacts, read your email, and send email from your account.

If you are concerned about this security vulnerability, you can consider moving to a more secure webmail provider such as Gmail.

## Treatment of canine osseous tumors with photodynamic therapy: a pilot study.

### Abstract

Photodynamic therapy uses nonthermal coherent light delivered via fiber optic cable to locally activate a photosensitive chemotherapeutic agent that ablates tumor tissue. Owing to the limitations of light penetration, it is unknown whether photodynamic therapy can treat large osseous tumors. We determined whether photodynamic therapy can induce necrosis in large osseous tumors, and if so, to quantify the volume of treated tissue. In a pilot study we treated seven dogs with spontaneous osteosarcomas of the distal radius. Tumors were imaged with MRI before and 48 hours after treatment, and the volumes of hypointense regions were compared. The treated limbs were amputated immediately after imaging at 48 hours and sectioned corresponding to the MR axial images. We identified tumor necrosis histologically; the regions of necrosis corresponded anatomically to hypointense tissue on MRI. The mean volume of necrotic tissue seen on MRI after photodynamic therapy was 21,305 mm(3) compared with a pretreatment volume of 6108 mm(3). These pilot data suggest photodynamic therapy penetrates relatively large canine osseous tumors and may be a useful adjunct for treatment of bone tumors.

So here are the plans.

## MT. SINAI JUDAICA LIBRARY

As previously noted, the building includes a library of Jewish books, tapes and periodicals (approximately 1200 books and 100 cassette tapes), currently chaired by Dorothy Feldman in memory of her late husband, Joe Feldman. His extensive collection of books has been doubled by donations of many people who lived in Cheyenne and left their treasured books to the library upon their death.

This library is qualified to be certified as a Judaica Library and would be the only certified Jewish library in Wyoming.

This page includes a link to [LibraryThing.com](http://LibraryThing.com) where a catalog of the books available may be found. The connection allows for the searching of books by author, title, as well as subject matter.

#### The subject matter is divided into 14 categories:

1. Jewish Culture and Religion
2. Jewish Philosophy and Literature
3. World Jewish History
4. American Jewish History
5. The Near East (Both Jewish & Arab authors)
6. Hebrew Language
7. Yiddish Language
8. Ancient History and Archeology (Biblical Archeological Review)
9. Holocaust History
10. Music Cassettes
11. Reference Section And Old Prayer Books
12. Jewish Periodicals
13. Genealogy of Cheyenne Jewish Cemetery
14. Mt. Sinai Congregation History (Incomplete)

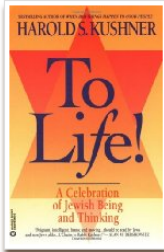

The library is open from 10 to 12:30 p.m. on Sundays and 1 – 4 p.m. on Wednesdays. Other hours, as well as introductory tours, may be arranged by appointment by calling Dorothy Feldman at 307-632-4253 or the Mt. Sinai office at 307-634-3052.

Materials may be checked out by members and friends of Mt. Sinai as well as other persons by arrangement.
